

SPC Holds Global Awareness and Faith – Enriching Activities

The month of October paved the way for activities that were aimed to promote global awareness and enrichment of faith across the entire SPC Community.

The Science Month celebration started the activities for October. It was highlighted by a fashion show that was held in the school auditorium. The SPCians were animated wearing clothes made from recyclable materials. The confidence of the participants doing their "cat walks on the ramp" while wearing their well-crafted costumes brought uproar from the audience. Other activities for Science Month Celebration like clean up drive and exhibit of inventions were also participated by the young SPCians.

True to its mission to be the arm of the Catholic Church in propagating love and loyalty to our Catholic faith, SPC celebrated the Month of the Holy Rosary. The traditional recitation of the Holy Rosary in all classes were faithfully done. Each department held their own Living Rosary Activities.

The Office of the Campus Ministry aiming to improve the spiritual services of SPC held an evaluation meeting last October 10, 2014. It was attended for all unit heads and Christian Living Education Teachers. The objectives and execution of the activities and the quality of the participation of the students and all the members of SPC in all spiritual activities during the first semester were evaluated. The activities for the second semester were also presented and necessary suggestions to improve the activities were noted in the said meeting.

The SPC students from grade school to college responded to the calling of the Catholic Church to support the Mission Sunday. The Office of the Campus Ministry distributed the brown envelopes of the Mission Sunday Society and was

able to collect 20 thousand plus as the total contributions of SPCians.

The spiritual recollection of the grade 7 students ended the spiritual activities for the month of October in SPC.

The month of November was cheerfully greeted by an important spiritual formation activity of the teachers of the high school and grade school departments. The two-day and a night spiritual retreat last November 3 and 4, 2014 at the BLD Retreat House of the Lagado Family in Dolores, Ormoc City was effectively facilitated by Fr. Larry Miranda, CMF. The teachers did not only enjoy their needed respite but also enjoyed the chance to renew their commitment of faithfulness to their mission as Benedictine educators.

The United Nation Celebration which carried global awareness objectives had its culmination activity during the second week of November. A competition among the beauties of the "different nations" showcased the talents of the contestants from the high school department.

More spiritual formation activities for the members of SPC Community are calendared this month of November because we in SPC want to join the Missionary Benedictine Sisters of Tutzing around the global community in saying: "The Benedictine Education Is our gift to the world." May our God bless us all.
